SUMMARY

Hello, I recently graduated with a degree in Computer Science from Tarumanagara University with a GPA of 3.7.

I have experience in developing websites and desktop applications from the frontend side and backend for CURRICULUM Project and PERSONAL Project, also have a basic understanding of visual designing, prototyping, and wireframing love to learn & adapt to different technologies and

other than coding skills, I've been in a non-technical job as a Presales IT Consultant, meeting with clients to determine solutions/products requirements and helping the team achieve 70% of the company target revenue on the first year with POC and Project Planning.
